

Palliser Regional Municipal Services provides GIS and Mapping services to all our Member municipalities and is also available for private map consultation. Some of the mapping services provided by Palliser Regional Municipal Services are...

- Parcel Mapping
- Land Use Development
- Subdivision Sketches
- Municipal Infrastructure Mapping
- Rural Addressing
- And much more.

Palliser Regional Municipal Services has also created a web based GIS system called PRISM (Palliser Regional Information System Management) which aims to provide both public and municipal users with regional based information. The [Tech Tips Newsletter](#) provides valuable information for utilizing the

[Webmap](#)

in conjunction with the GIS and Mapping services provided by Palliser Regional Municipal Services. For mapping assistance please contact our office at 1-877-854-3371 or info@palliserservices.ca
